EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In paragraph 0001, line 2 after "April 27, 2001, ", insert -- now U.S. Patent 6,673,133, --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claim 1 recites "a sidewall of the cyclone body defining a plurality of discharge openings between the upper and lower tube sheets for tangentially discharging particles and a minor amount of an underflow gas stream". Wilson discloses a third stage separator including a cyclone body which includes a single, non-tangential discharge opening(24) for discharging particulates and a minor amount of an underflow gas stream. It would not have been obvious to someone of ordinary skill in the art at the time of the invention to substitute a plurality of discharge openings for the single, non-tangential discharge opening because Wilson does not suggest such a modification. Claims 2 and 3 depend on claim 1 and hence are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably Art Unit: 1724

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
